

HotSpot service

Wireless Internet access in public places

T-Systems

The web has become an integral part of everyday life. Today reliable fast Internet may be needed not only at home or at the workplace, but you may need to have immediate access to the Internet also in cafés, restaurants, hotels, on business trips. HotSpot service offers a solution for this problem since you can have high-speed wireless access to the web at the places covered by this service with a portable computer and a HotSpot Internet card.

Who can benefit from the T-Systems HotSpot service?

Those who want to have access to the Internet, to browse websites and send e-mail messages outside the office too (in hotels, conference centers, restaurants, cafés, etc.).

Benefits gained with the use of the service

- Magyar Telekom's subscribers to DSL service can use the HotSpot service free of charge.
- Not bound to a given place.
- No installation time.

What is needed to use the service?

- Portable or handheld computer with installed WLAN card (with PCMCIA, USB, PCI or Compact Flash interface according to IEEE 802.11b or IEEE 802.11g standard),
- site covered by the HotSpot service,
- Internet browser program with enabled JavaScript and Cookie setting that supports secure (https) communication,
- when a portable computer is used Netscape 4.05 or Internet Explorer 5.01 or higher version, when hand-held computer is used an equivalent browser must be available.

Where is the service available?

The number of places covered by the HotSpot service is constantly rising. This service is primarily available in hotels, conference centers, restaurants and cafés, in places where Magyar Telekom has installed wireless Internet service.

If you would like your guests, customers, employees to be able to use our HotSpot service in the area of your enterprise, institution, local government request a customized offer from your account manager.

Ways of using

Customers having ADSL or T-DSL subscription

and Magyar Telekom subscribers having DSL subscription can use our HotSpot service free of charge. Subscribers having ADSL or T-DSL Internet access can at any time use the HotSpot wireless Internet service with their e-mail address and password given with that access. HotSpot traffic volume data are available at our Online Customer Care Service.

T-Com HotSpot card

1-hour, 5-hour and 24-hour cards

You can use the service in the areas covered by HotSpot on any number of occasions up to the time limit shown on the card. You don't need to insert the card into the computer, the card is used only to show the user name and password needed to use the service.

0.5-hour card

The duration shown on the card (0.5 hour) can be used within the card validity period for Internet access after the first log-in. The service can be used by entering the user name and password shown on the HotSpot card. You don't need to insert the HotSpot card into the computer, the card is used only to show the user name and password. HotSpot cards are sold in T-Pont shops and dedicated points in the areas covered by the service.

Bank card payment offer

Connect to the wireless network called T-Com, start your Internet browser with any website, then select bank card payment on the HotSpot start page. The HotSpot access purchased with a bank card is valid for 3 months after the date of purchase. You can access the Internet on any number of occasions within the validity period until the time shown on the card is reached. HotSpot access is charged with second-based tariffs.
