Photos of the devices are only for illustration. Payment by installments over 2 years, no interest.

Installments for notebooks and desktop computers include the following IT services for the device purchased:

- upon request of the customer bringing into operation and assistance at the premises for transferring the data stored on the old computer to the new device,³
- during the contract term
 - specified online or telephone support,⁴
 - one site visit and 30 minutes work.⁴

¹ MS Office 365 packages are available for extra charge.

² Rounded figures.

³ Please indicate your request of free bringing into operation on the business telephone number **1435**. Data backup is not offered for Apple laptops. Only bringing into operation is offered for monitors.

⁴ The scope of assistance services is shown in the [General Terms of Szuperszerviz](#).

The device offer is valid from November 10, 2014 until revoked or stocks last for business customers having for 6 months subscription to a service of Magyar Telekom Plc, with no arrears and compliant with the liquidity check defined in the General Terms of Contract. Payment by installments is subject to maintenance of the contract during the total term. In the case of termination before expiry the outstanding installments of the notebook/desktop computer/monitor become payable in a lump sum. IT support services accessible exclusively by phone or online can be used after the end of term or with a scope exceeding the package content with the tariffs shown in the [General Terms of Szuperszerviz](#). Further information about guarantee conditions is available on our website (www.telekom.hu/uzlet/). If the customer does not request bringing into operation on the first occasion, the time needed for bringing into operation is credited in the form of site visit and can be drawn at any time. This information is non-exhaustive, for detailed conditions: 1435, account manager, www.telekom.hu/uzlet/, shops. All the links written in the handout, referring to the Hungarian website of Magyar Telekom Plc.
