„Hi! :)

Well, how should I start? I really enjoyed the net games... I learned a lot, as I didn't know you can search that fast. Actually, I couldn't even use the net properly. So, you know, it's really great that there's a show like this, and folks who never even got close to the net can get to know the worldwide web...

I mean this whole stuff is great, and come back next year!!!” B.E.

„Dear Magyar Telekom Digital Bridge,

Thank you for the opportunity! We had a great time!

„...Sun is shining, I just passed under the Telekom Digital Bridge...”

by G.T. :D

Thanks again for the games! We hope to see you guys next year, same place, same time!!!

Regards: B.Á.; G.T.; B.B.

„Dear MTDB Team,

I am fully satisfied with the service provided at Kapolcs and thank you, on behalf of also the others, for the free public internet access.

Thank you: E.

PS.: The hostesses are gorgeous!”

„Well...

My friends and I were cruising Kapolcs and headed to take a leak, when we caught sight of the magenta logo. That was when both of us started to feel that there is hope. We entered and got caught up in a contest. We fought as hell to get the first prize, but unfortunately lacked one point, and came in only as second. (Still, the party was great, and we managed to collect some cool hats, along with the T-shirts. I mean, thanks, T-COM! Later! a.&z”

„I was happy to learn that there would be free net access at Kapolcs.

I spend several days here, and it's good that I do not have to totally cut myself off from the world, just because I spend my holidays at a small village.

I hope there's going to be something like this next year, too.

What is also important is that the climate is really good at the school, where the net access is. :)

By the way, there are real water-flush toilets. :)

Thanks! G.”

„The free internet access was a great idea. The internet is high-speed, the people are nice, the surroundings are friendly, and the chocolate and the apples just made things even better. :)

I hope to see something like this next year, too.

The internet access was vital for me, so thank you!

Regards, S.”
