This investor presentation contains forward-looking statements. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. These statements are based on current plans, estimates and projections, and therefore should not have undue reliance placed upon them. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

Forward-looking statements involve inherent risks and uncertainties. We caution you that a number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Such factors are described in, among other things, our Annual Reports for the year ended December 31, 2017 available on our website at <http://www.telekom.hu>.

In addition to figures prepared in accordance with IFRS, Magyar Telekom also presents non-GAAP financial performance measures, including, among others, EBITDA, EBITDA margin, and net debt. These non-GAAP measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with IFRS. Non-GAAP financial performance measures are not subject to IFRS or any other generally accepted accounting principles. Other companies may define these terms in different ways. For further information relevant to the interpretation of these terms, please refer to the chapter “Reconciliation of pro forma figures”, which is posted on Magyar Telekom’s Investor Relations webpage at www.telekom.hu/investor_relations.

HUNGARY - TOTAL

Revenue¹

- Mobile service revenue growth thanks to strong data demand
- Rise in fixed service revenue driven by higher TV and broadband subscriber bases
- Increase in SI/IT revenue due to strong demand for HW&SW delivery projects
- Decline in other revenues resulting from reclassification of handset insurance revenues as mobile content from 2018

¹ Excluding IFRS 9 & 15 effects

EBITDA¹

- Decline in gross profit driven by the increasing weight of lower margin services in the sales mix, coupled with one-off effects positively impacting Q3 2017
- Higher employee related expenses due to trainee insourcing, wage increases and higher severance expenses
- Other OPEX savings achieved in energy and maintenance
