

Presentation

Magyar Telekom Full Year 2008 Results

Transformation reinforces strong market and financial position

Abbreviations:

3G: third generation, ARPU: average revenue per user, BB: broadband, CBC: call-by-call, CPS: carrier pre-selection, HQ: headquarters, HSDPA: high-speed downlink packet access, IC: interconnection, IP: internet protocol, IT: information technology, LTO: local telecommunication operator, MOU: minutes of use, NGN: next generation network, NRA: National Regulatory Authority, POP: point of presence, RIO: reference interconnection offer, RPC: revenue producing customer, SI: system integration, SIM: subscriber identity module, SMP: significant market power, Special influences: investigation- and headcount reduction-related expenses, Tetra: Terrestrial Trunked Radio, UMTS: Universal Mobile Telecommunication System, VAS: value added services, VoCaTV: Voice over Cable TV, WiMax: Worldwide Interoperability for Microwave Access, WS: wholesale

HUF/EUR 250.4 (average 2008)

As previously disclosed, in the course of conducting their audit of Magyar Telekom's 2005 financial statements, PricewaterhouseCoopers Könyvvizsgáló és Gazdasági Tanácsadó Kft. ("PWC") identified two contracts the nature and business purposes of which were not readily apparent to them. In February 2006, the Company's Audit Committee retained White & Case (the "independent investigators"), as its independent legal counsel, to conduct an internal investigation into whether the Company had made payments under those, or other contracts, potentially prohibited by U.S. laws or regulations, including the Foreign Corrupt Practices Act ("FCPA"), or internal Company policy. The Company's Audit Committee also informed the U.S. Department of Justice ("DOJ") and the U.S. Securities and Exchange Commission ("SEC"), and the Hungarian Supervisory Financial Authority of the internal investigation.

Based on the documentation and other evidence obtained by it, White & Case preliminarily concluded that there was reason to believe four consulting contracts entered into in 2005 were entered into to serve improper objectives, and further found that certain employees had destroyed evidence that was relevant to the investigation. White & Case also identified several contracts at our Macedonian subsidiary that could warrant further review. In February 2007, our Board of Directors determined that those contracts should be reviewed and expanded the scope of the internal investigation to cover these additional contracts and any related or similarly questionable contracts or payments. In May 2008, the independent investigators provided us with a "Status Report on the Macedonian Phase of the Independent Investigation." In the Status Report, White & Case stated, among other things, that "there is affirmative evidence of illegitimacy in the formation and/or performance" of six contracts for advisory, marketing, acquisition due-diligence and/or lobbying services in Macedonia, entered into between 2004 and 2006 between us and/or various of our affiliates on the one hand, and a Cyprus-based consulting company and/or its affiliates on the other hand, under which we and/or our affiliates paid a total of over EUR 6.7 million. The internal investigation is continuing into these and other contracts identified by the independent investigators.

In 2007 the Supreme State Prosecutor of the Republic of Montenegro informed the Board of Directors of Crnogorski Telekom, our Montenegrin subsidiary, of her conclusion that the contracts subject to the internal investigation in Montenegro included no elements of any type of criminal act for which prosecution would be initiated in Montenegro.

Hungarian authorities also commenced their own investigations into the Company's activities in Montenegro. The Hungarian National Bureau of Investigation has informed us that it closed its investigation as of May 20, 2008 without identifying any criminal activity.

United States authorities commenced their own investigations concerning the transactions which are the subject of our internal investigation, to determine whether there have been violations of U.S. law. The Ministry of Interior of the Republic of Macedonia has also issued requests to our Macedonian subsidiaries, requesting information and documents concerning certain of our subsidiaries' procurement and dividend payment activities in that country (together with U.S. investigations, the "Government investigations"). During 2007, the U.S. authorities expanded the scope of their investigations to include an inquiry into our actions taken in connection with the internal investigation and our public disclosures regarding the internal investigation.

We cannot predict when the internal investigation or the ongoing Government investigations will be concluded, what the final outcome of those investigations may be, or the impact, if any, they may have on our financial statements or results of operations. Government authorities could seek criminal or civil sanctions, including monetary penalties, against us or our affiliates, as well as additional changes to our business practices and compliance programs.

Magyar Telekom incurred HUF 5.4 bn expenses relating to the investigation in 2008, which are included in other operating expenses in the Group Headquarters and Shared services ("GHS") segment.

Agenda

Overview

Magyar Telekom's strategic priorities

Changes in organization, brand structure

Improving service quality and portfolio

Focus on efficiency

Challenges and strengths

Dividend policy

Impacts of the financial crisis on Magyar Telekom

Regulatory snapshot

Public targets for 2008 and 2009

2008 summary and segment analysis

Overview

Magyar Telekom Group at a glance

Market leader in all core businesses

Integrated operations in Hungary, Macedonia and Montenegro

- operating in 39 local primary areas out of the total 54 in Hungary
- POP and /or alternative operations in Romania, Bulgaria and Ukraine

Local concession areas in Hungary

Segment reporting structure

- **T-Com:** fixed line; PoP and alternative operations
- **T-Mobile:** mobile operations; TETRA services
- **T-Systems:** traditional and SI/IT services for corporate clients
- **HQ and Shared services:** strategic and cross-divisional services

Stock information

EUR 2.0bn market capitalization

Stock exchange listing

- listed on NYSE and Budapest Stock Exchange
- traded in London

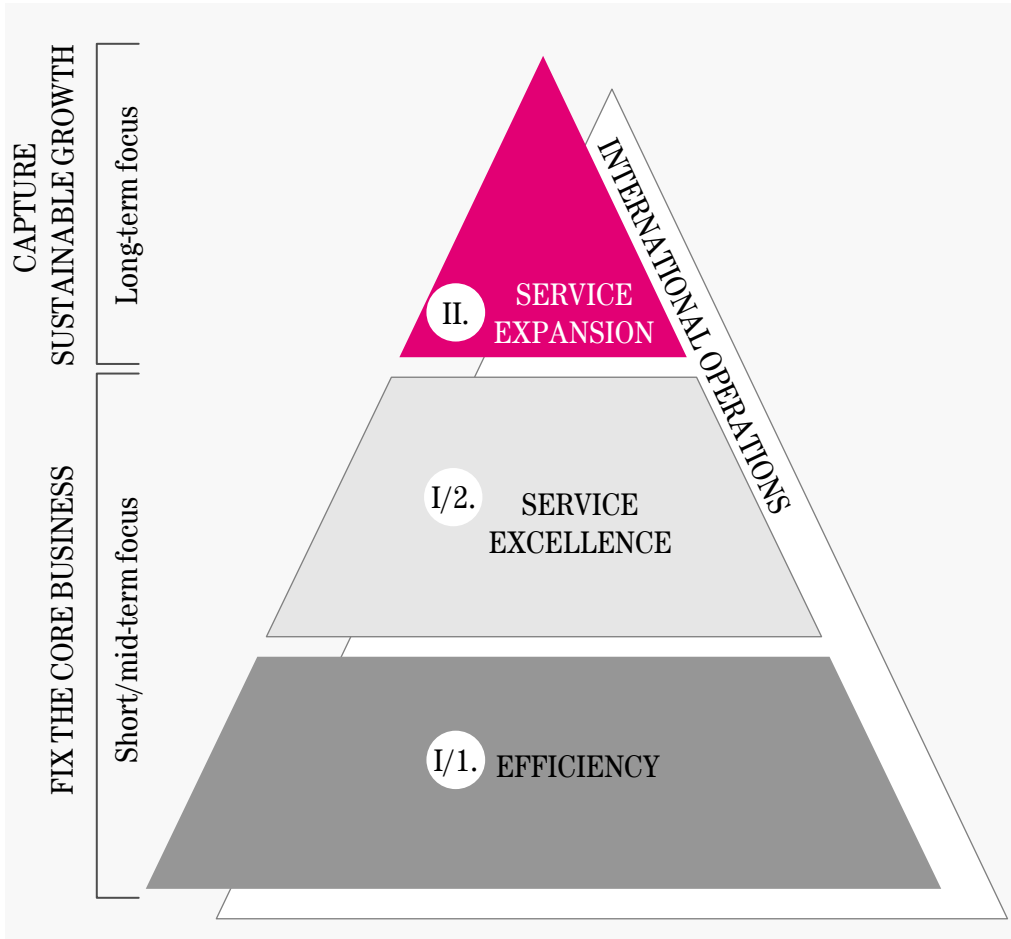

Ownership structure*

*approximate figures as of 31 December, 2008

Magyar Telekom's strategic priorities

Focus on efficiency, service excellence and expansion

- execute value-accretive acquisitions in the region and in Hungary
- expand into new business areas (e.g. content services)
- develop and launch new access supporting services, T-inspired products

- stronger customer focus with improved service quality and processes
- integrated sales and call-center services
- centralised business client relationship management

- leveraging opportunities from integrated operations
- improvements in operational cost structure
- increased productivity, headcount reductions

Magyar Telekom's strategic priorities

Further expansion in the SEE region and in Hungary

South-Eastern Europe

Seeking additional value-creating acquisitions both in Hungary and South-Eastern Europe

- 2001 - Makedonski Telekom
- 2005 - Crna Gora Telekom
- 2006 - entry into the Bulgarian and Romanian retail markets

Hungary

Leading position in the SI/IT market through acquisitions; further consolidation underway

- 2005 - Dataplex
- 2006 - KFKI
- 2007 - T-Systems Hungary
- 2009 - KFKI Direkt

International presence

Increasing presence in the content and advertising market

- 2006 - Mobilpress, MFactory
- 2006 - iWiW
- 2008 - IKO New Media

Further consolidation in the cable market

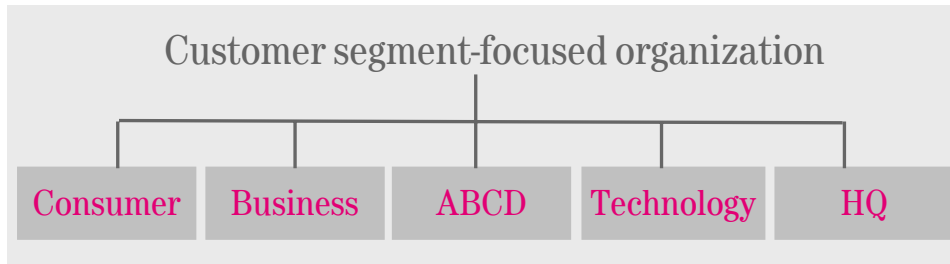

- 2008 - Délvonal

Changes in organization, brand structure

Leaner organization, simpler brand structure

New organizational structure

New organization since January 1, 2008

- **Consumer Services:** mobile and wireline consumer services under the T-Home and T-Mobile brands
- **Business Services:** mobile and wireline corporate services including SI/IT under the T-Systems brand
- **Alternative Businesses and Corporate Development (ABCD):** content, media and other non-access services, new business development
- **Technology and IT Management:** mobile and wireline network and IT management and development

Clear brand structure

- “T” as our corporate brand identifies the Magyar Telekom Group

Consumer Services

- “In the Home” wireline home communications and entertainment services

- “On the Move” wireless communication and entertainment services

Business Services

- Business and corporate solutions, ICT services

Improving service quality and portfolio

Reinforcing technological leadership

New generation access strategy

5-year plan aiming to cover 1.2 million households by 2013 (~30% of Hungarian households) offering bandwidth of up to 100 Mbit/s

Fiber-to-the-Home network

- to cover around 200,000 households by end-2009, extending to 780,000 households by end-2013
- using mainly FTTH G-PON technology

Cable network upgrade

- to cover around 380,000 households by end-2009
- using Docsis 3.0 technology

Total investment is HUF 40 billion between 2009 and 2013

- 2009 CAPEX is HUF 10bn, which will be absorbed in the annual CAPEX spending
- total 2009 Group-level CAPEX will remain at 2008 levels

Satellite TV service

T-Home Sat TV

- nationwide DVB-S service (Digital Video Broadcasting-Satellite)
- 5,000 Sat TV subscribers plus additional 13,000 orders by end-2008
- premium picture and voice quality, HD channels, electronic program listings
- discounts for 2Play and 3Play subscriptions

Investment need

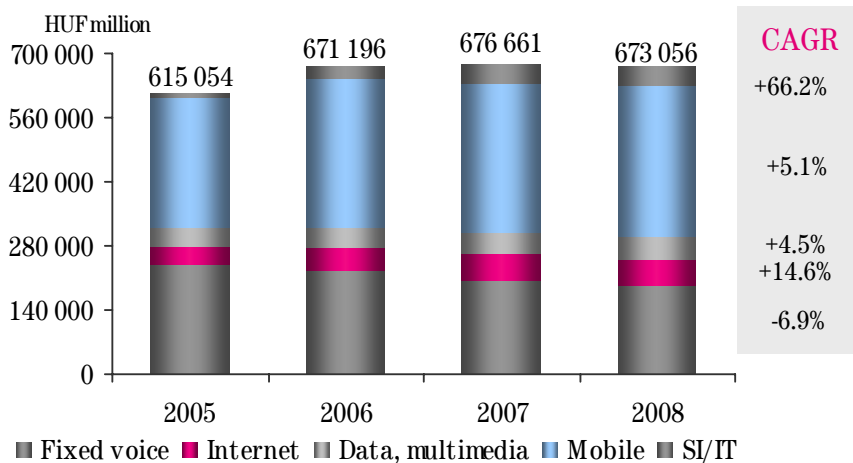

- CAPEX required for the establishment of the service was less than HUF 1 billion in 2008

Changing business needs, need for efficiency improvement

Change in revenue mix

Revenue breakdown

Stable top line hides dynamic change in revenue mix

- ratio of SI/IT revenues exceeded 6% of Group revenues in 2008
- new revenue sources have lower EBITDA margin putting pressure on group profitability

Strong focus on profitability

Growing EBITDA margin and returns

- ongoing headcount reduction and cost cutting reflected in margin
- visible signs of efficiency improvements in the increasing EBITDA margin and returns

EBITDA margin, ROA

*Excluding special influences

**EBIT (excluding special influences) / Average total assets

Impacts of the financial crisis on Magyar Telekom

Persistently weaker currency, higher interest rates

Economic recession

Risks	<ul style="list-style-type: none"> ▪ increase in purchasing costs ▪ higher financing costs ▪ FX impact on consolidated results of international subsidiaries 	<ul style="list-style-type: none"> ▪ reduction of telecommunication spending both in residential and business segments ▪ increase in bad debt
Opportunities	<ul style="list-style-type: none"> ▪ acquisition opportunities (low asset prices, companies facing financial difficulties) 	<ul style="list-style-type: none"> ▪ new orders through increased ICT (information and communication technology) and outsourcing activities in the corporate sector ▪ increased demand for competitive bundled offers (2Play/3Play)
Strengths	<ul style="list-style-type: none"> ▪ conservative capital structure ▪ average maturity of debt is 3 years ▪ ratio of FX loans is insignificant ▪ financing through Deutsche Telekom 	<ul style="list-style-type: none"> ▪ demand for telecommunication services is less sensitive to economic downturn ▪ well diversified IT and telecommunication services portfolio

Regulatory snapshot

Regulation follows the EU regulatory recommendations in all three countries

- Hungary: fully in line with the EU Regulatory Framework
- Macedonia: liberalization of the fixed line market is in progress, regulated mobile termination rates
- Montenegro: new telecommunication law was adopted in 2008 - full liberalization to come in 2009 and 2010

	Hungary	Macedonia	Montenegro
Reference interconnection offer	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Reference unbundling offer	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Wholesale line rental	<input type="checkbox"/>	<input type="checkbox"/> *	<input type="checkbox"/>
Bitstream access	<input checked="" type="checkbox"/>	<input type="checkbox"/> *	<input type="checkbox"/>
Number portability (fixed and mobile)	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Regulated mobile termination rates	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
EU mobile voice roaming regulation	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

* Expected regulation in Q1 2009 based on proposed draft by-law

Public targets for 2008 and 2009

2008 public targets and results

2009 public targets

Revenue

Flat over 2007

-0.5%

1% decline compared to 2008

- due to recession disposable income will significantly fall
- competitive landscape
- strict regulation

Underlying* EBITDA

Flat over 2007

+1.9%

1-2% decline compared to 2008

- difficult macroeconomic environment
- increased competition in the international mobile markets
- regulatory impacts

**Excluding special influences*

Capex** / sales

Around 15%

15.4%

Capex: maintain the absolute 2008 level

- fiber-to-the-home roll-out
- increase BB coverage (fixed and mobile)
- develop new products and services

***Excluding the Macedonian 3G license fee of HUF 2.5bn and non-cash items totaling HUF 1.8bn in Q4 2008*

2008 summary

		Revenues		EBITDA		EBITDA margin
Group		HUF 673.1bn	-0.5%	HUF 268.4bn	+10.0%	39.9%
	Underlying**			HUF 282.3bn	+1.9%	41.9%

	HQ & shared services	HUF 22.1bn	-6.7%	HUF -21.4bn	+25.8%	n.a.
	underlying			HUF -14.8bn	+4.4%	n.a.
International contribution			16.2%		18.6%	

*Before intersegment eliminations

** Excluding special influences and including the HUF 8.5bn one-time provision reversal related to F2M IC fees accounted in Q2 2008

T-Home: Hungarian operations

Focus on efficiency and customer retention

Voice revenues under threat from competition

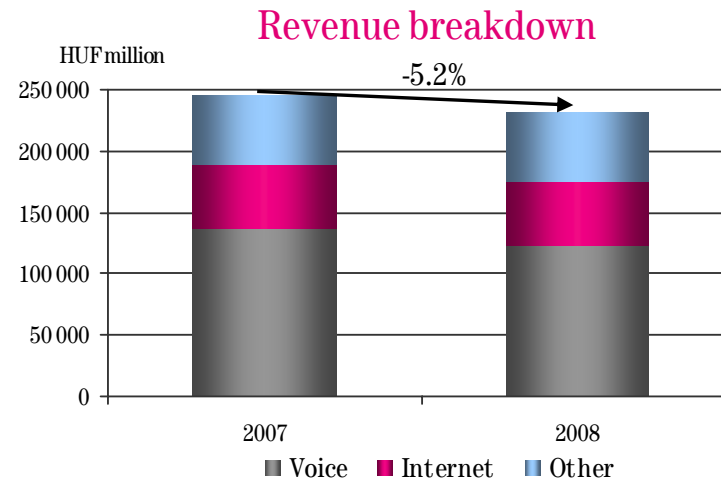

- increasing threat from cable operators offering 3Play
- strong mobile substitution as mobility premium diminishes
- annualized churn of fixed lines was 9.6% at the end of 2008

New offers launched with T-Home rebranding campaign

- new double and triple play packages with discounts
- more competitive broadband pricing

First results of efficiency improvement efforts

- lower headcount leads to 2% lower underlying employee-related expenses
- positive impact of the one-time provision reversal related to F2M interconnection fees (HUF 3.2bn)

T-Home: Hungarian operations

Broadband market developments

General deceleration of BB market growth

- MTel's ADSL retail market share is 52%, cable BB 16%
- most competition comes from cable operators, while mobile BB is also becoming a competitive product
- low-end DSL offer from HUF 2,990 (~EUR 12)
- decline in average DSL ARPU to HUF 5,300 (11% decrease compared to the level in 2007)

Broadband growth

Cable services

Second player on the cable market

- T-Kábel market share ~19% based on cableTV customers (~423,000)
- CaTV ARPU around HUF 3,500 (~EUR 14)
- cable broadband customer base 108,000
- 51,000 VoCaTV customers - c. HUF 2,300 voice ARPU

2008 revenue HUF 24.3bn with an EBITDA margin of around 41%

Triple play offers

Strong focus on Triple play on both fixed line and cable network

- rebranding and repositioning of our 3Play offers
- new, simple and competitive offers under T-Home, launch of Sat TV service
- fixed line: IPTV/Sat TV, ADSL, VoIP
- cable: CaTV, Cablenet, VoCable
- offers starting from HUF 6,480/month (~EUR 26)

T-Mobile: Hungarian operations

Solid financial and operational performance

Continuing tariff decline

- MOU increased by 2% yoy to 152 in 2008
- ARPU down by 10% to HUF 4,087 (~EUR 16)
- growing importance of VAS (17% of ARPU)
- postpaid ratio continuously increasing

Mobile internet development

- HSDPA network covering ~67% of population
- up to 7Mbps bandwidth
- number of internet subscribers exceeded 220,000 at end-2008

Usage and ARPU trends

T-Mobile Hungary financial performance

Breakdown of T-Mobile customer base

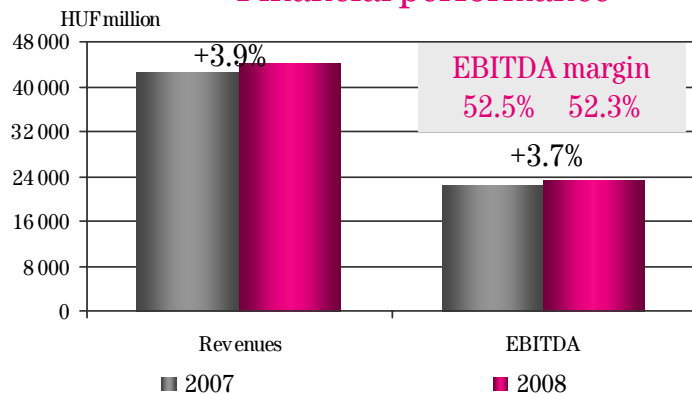

T-Mobile: international operations

Macedonia

- 3rd operator VIP (Telekom Austria) entered in September 2007
- focus on customer acquisition, 14% growth in customers
- MOU 96 (up 7%); ARPU HUF 2,586 (~EUR 10)

Financial performance

Montenegro

- high penetration is driven by tourism and 3rd entrant
- 3rd operator M:tel (Telekom Serbia) entered in July 2007
- MOU 105; ARPU HUF 2,886 (~EUR 9)

Financial performance

Growing importance of SI/IT services

Leading position in the Hungarian SI/IT market

- full scale IT service portfolio offered through acquisitions of KFKI and T-Systems Hungary
- cross-selling opportunities through sales channels integrated with T-Mobile and T-Com
- new cost-efficient bundled products for our corporate customers

SI/IT revenues grew by 8% in 2008

T-Systems quarterly revenue breakdown

Declining traditional revenues

Pressure on voice and data revenues

- intense competition from alternative service providers and strong mobile substitution

Change in revenue mix puts pressure on EBITDA margin

- increasing contribution of low-margin SI/IT revenues
- financials were helped by a one-time HUF 5.3bn provision reversal in Q2 2008

Financial performance
